

ShowPro Rings Gate App - Multiple Horse

For classes where all the horses are in the ring at the same time the below app is provided. The entrants are loaded in back number order when the class is selected. When the check box is checked the entrant is verified in ShowPro as having been judged.

A function is available for the paddock master to enter at the gate, the back number is typed into the Add Entry box and when the ADD button is pressed the entry is added in ShowPro. If there are more than one person on the entry a prompt will appear to select the correct rider. If it is a combined class a prompt will appear to select the correct original class.

When the box is checked next to a horse the entrant is verified in the office electronically as actually having been judged, this is an important function.
